Carryover and water account balances reminder

Customers are reminded that 5pm Monday 31 May 2010 is the deadline for annual transfers between landholdings and or water allocation accounts for 2009/10.

Up to 100 percent of water entitlements can be carried over from 2009/10 to 2010/11.

The maximum water available in 2010/11 including announced allocation and carryover is 100 percent of water entitlements.

Customers with multiple landholdings or multiple water allocation accounts are advised to review the volume remaining in these accounts and transfer remaining water between accounts where necessary to maximise their access to the announced allocation in 2010/11.

If the amount of water available in your account after Monday 31 May 2010 **exceeds** your number of water entitlements, you will **forfeit** that excess water.

Account balances are available from the Customer section of Murray Irrigation's website www.murrayirrigation.com.au, or from your Planner.

To access information in the customer area you will need your six digit landholding number and your four digit PIN.

Water can be transferred between accounts with the same PIN via the Water Ordering Line 1300 781 431.

Alternatively, an Internal Annual Transfer (Form 6A) must be completed. This form is available from Murray Irrigation's website www.murrayirrigation.com.au in the Water Exchange section under Forms. Copies are also available from Deniliquin Reception on T. 03 5898 3300.

A handwritten signature in black ink, appearing to read 'Anthony Couroupis', with a stylized flourish at the end.

Anthony Couroupis
General Manager
