## Off Allocation Water available Wednesday 1 September and Thursday 2 September

Murray Irrigation today announced two days of restricted access to Off Allocation Water from Wednesday 1 September to Thursday 2 September.

To access Off Allocation Water please place an order immediately by calling 1300 781 431.

To take delivery, water orders must be placed by 6.30am (i.e. to access Off Allocation Water on Wednesday 1 September your order must be placed by 6.30am).

Murray Irrigation's access to Supplementary Water is restricted and a large proportion of Murray Irrigation's supply channels are still empty or well below full supply level.

This means that delivery of Off Allocation Water is opportunistic and cannot be guaranteed.

Customers should note that where Off Allocation Water can be delivered, there is a chance that delivery rate restrictions may be necessary to provide for the equitable sharing of the available water.

Announcement of extensions to Off Allocation Water access is unlikely before Thursday 2 September.

Customers will be advised of any updates regarding Off Allocation Water access via *Talking Water*, SMS and a message on the Water Ordering line.
