

Environment Policy – Discharge into the supply system

Discharge into supply system: Information

Approval is required to discharge water into Murray Irrigation's supply system on landholdings that do not have access to the drainage system.

Discharge into the supply system can only be commenced after approval has been received from Murray Irrigation.

Murray Irrigation may impose conditions on the discharge of water into the supply system.

All pumps used to discharge water into the supply system must be removed at the end of the approval period.

For further information, please contact Customer Support on 1300 138 265.

Form - Discharge water into supply system
