

Season opening brief

Friday 31 August 2018

Murray Irrigation

NOTE: Date change

Murray Irrigation and a representative from DoI-Water will provide pre-season operational briefings in the footprint next week.

A delegate from DoI-Water will provide Wakool and Deniliquin customers with an insight into the complexities of water allocation and explain how the current allocation remains at zero.

The DoI-Water staffer will not be available for the Finley meeting.

The briefings will concentrate on engineering, channel fill and maintenance plans and offer a short presentation on the political and industry landscape from Southern Riverina Irrigators.

The formal part of the meetings is expected to last no longer than 30 minutes, after which customers can talk to staff on issues relating to their farm.
