

# Annual General Meeting update

November 2018

Murray Irrigation

## Murray Irrigation's Annual General Meeting was held in Deniliquin last night.

Key elements of the meeting were:

- Membership of the new Board of Directors, including the appointment of the three non-member directors, was formally ratified
- The board is working diligently and announced that its major focus will be on the future financial sustainability of the company
- The board recognised the need for collaboration in the region and expressed its commitment to support the recently established Murray Regional Strategy Group alliance
- The board is confident of a positive future for the company and will engage with shareholders in February to share its vision and seek feedback
- The board and management will continue to pursue every avenue to encourage an allocation of General Security water for the region
