

# Vacant position

November 2018

## Fixed Asset Accountant

- Ongoing full-time role
- Attractive salary, performance incentives and 'work perks' on offer
- Based in Deniliquin, Riverina NSW where our country lifestyle is second to none

### The position

This role is an essential part of the finance team ensuring department objectives and tasks are met in a timely manner. The necessary assistance to the Finance Manager and other internal stakeholders ensures that all statutory obligations are achieved.

You will be responsible for recording the cost of newly-acquired fixed assets, tracking existing fixed assets, recording depreciation and accounting for the disposition of fixed assets.

This role will also see you assist with all aspects of operational responsibility including month-end journals, monthly close off procedures, maintenance and reconciliation of the CWIP and asset register.

### The perfect candidate

You will be degree qualified in Business Management, Accounting, Commerce or a related discipline. Advanced computer skills in excel are essential along with experience working with accounting software packages and fixed assets accounting systems. Experience working in the fixed asset field is desirable, but not essential.

Certification by the Institute of Chartered Accountants or the Australian Society of Certified Practising Accountants would be highly regarded but not essential.

### What we can offer you

- An attractive remuneration package including incentive programs to reward performance
- Opportunity to build on your career working alongside a dedicated and professional team
- Work perks such as supported study opportunities, health and wellbeing programs, purchased annual leave and remote area salary packaging options

### How to apply

Further enquiries can be made with Vicki Holloway on 1300 138 265.

Applicants can obtain a Role Statement through the 'Careers' portal on our website.
