Winter Works progress update

As you're aware, Murray Irrigation's winter maintenance program is still underway.

This season, we are upgrading bridges and culverts that cross channels, to ensure they comply with the relevant Australian Standards.

This work is part of our three-year rolling maintenance program to ensure that canals and channels remain fit-for-purpose for the upcoming irrigation season.

Be Road Safe – follow local traffic rules

Please slow down and obey all traffic control measures that are in place as we work to upgrade bridges within our footprint.
