

Director engagement

Murray Irrigation Directors are seeking feedback from shareholders to prepare for its strategy workshop at the end of February.

A small number of targeted group meetings are being held across the region next week.

The topics for discussion, and feedback submission form, can be found [here](#).

Shareholders not in attendance at the meetings can submit feedback to Murray Irrigation, or contact their Landholder Association (LHA) representative who will pass this feedback on.

Closing date for feedback is Friday, 12 February 2021.

Customer engagement for operational topics will be performed by staff over the remainder of the season.

Technical Issues - Apology

Some customers received duplicate email copies of the December 2020 quarterly invoices.

We apologise for this error and you can disregard additional copies.

We are also working to improve the clarity of your invoices, in particular the balance owing.

Customers can also log in to the [Customer Portal](#) to view account balances, or you can request a full statement by contacting customer operations.

Discharging water into Murray Irrigations supply/drainage system

Customers must have prior approval to discharge water into Murray Irrigation's drainage or supply system.

Drainage water must be delivered through a drainage inlet and will require a water test.

Please complete [this form](#), available on our website, for approval to discharge water into the system.

Sustainability Product payments

Sustainability Product Round One and Two invoices are due Sunday, 28 February 2021.

Please allow time for your payments to clear prior to the due date.

Payment options can be discussed by contacting Customer Operations

Blue-green algae

There are current amber alerts within our footprint for blue-green algae, and customers are reminded to keep an eye out for potential blooms.

Blue green algae can multiply quickly in water.

Click [here](#) to see the current blue-green algae alerts.

RCS Soil Solutions workshop

Resource Consulting Services (RCS) Australia will deliver a one-day workshop in Deniliquin next Tuesday, 9 February 2021.

The workshop will deliver industry information on soil biology, giving you practical tools to benefit the land and your business in your farming practices.

You can find more information [here](#).

Murray Irrigation customer updates

All our customer updates are sent to your email, but if you miss one, or you need to find one again, you can view them all on our website.

Just go to *Customers > Resources > Customer updates* or click [here](#).
