

Sustainability Product EOI

The opening for Expressions of Interest (EOI) for our Sustainability Product was announced yesterday.

Murray Irrigation is offering 40,000 ML of water at \$65/ML through the WaterWell suite of products.

Supplementary Event

Murray Irrigation has accelerated the transition out of Winter Operating Mode to enable deliveries of supplementary water.

Operating heights are being raised in non-maintenance zone areas and customers will be notified via SMS with the expected commencement date for deliveries to their outlet once channel operating conditions permit.

You are encouraged to place an order as soon as possible once you receive the SMS to enable us to plan the deliveries and ensure an adequate operating height is available at the outlet.

In Maintenance Zone areas scheduled winter works will need to be completed prior to commencing refilling of the areas.

The expected commencement date for refilling Maintenance Zones is Friday, 30 July 2021, as recent rain has caused some delays in the scheduled maintenance works.

Invoice delivery

Did you get your last invoice correctly?

If your last invoice did not arrive to you the way that you expected, you can update your finance correspondence information using a '[Form 2](#)'.
