

Guaranteed delivery dates

Water delivery is guaranteed until the dates listed in the tables below, meaning you will get the water you ordered within that timeframe, in line with the Distribution Rules. To find which Operational Area your outlets are in, check your [“My Outlets”](#) page on the customer portal. More info [here](#).

Winter operations transition

4-day advance notice is automatically applied to all water delivery orders by the water ordering system. This allows us to reduce channel volumes and manage customer orders consecutively to get the most efficient

water delivery outcome through the transition.

Where you require an earlier start, please send a message, with your requested start date and time when you place your order in the system.

All orders will be reviewed daily in the afternoon and customers notified of start date and time.

Please also be aware of increased vehicle and heavy machinery activity, safety signage and changed road conditions as we prepare for the winter maintenance program.
